

# Critical Thinking

## Students will develop the ability to:

1. Identify and summarize a problem or issue comprehensively, delivering relevant information needed for understanding.
2. State own and others' perspectives and limits of positions, as related to the problem/issue.
3. Identify the key assumptions that underlie the issue.
4. Assess the quality of supporting data/evidence to support conclusions and implications or consequences.
5. Evaluate information and arguments for validity and sound reasoning.
