

## CIS 105: Hardware Fundamentals

This course introduces the student to the fundamentals of computer hardware that lay a foundation for their other courses in computers. Students develop an understanding of the fundamentals involved in buying, building and maintaining a computer. One class hour per week. Instructional Support Fee applies. Gen. Ed. Competencies Met: Critical Thinking.

## **Course Student Learning Outcomes**

- 1. Understand and apply a basic understanding of hardware that is a framework for many other courses in CIS/CIT.
- 2. Develop an understanding of the decisions that need to be made when buying a computer to meet specific needs.
- 3. Develop an understanding of what is involved in building and maintaining a computer.

## Credits: 1

Program: Computer Information Systems
