

Helping you make your way

That's the idea behind Bristol Community College. To reap the maximum benefit from your college education, you need opportunities to exercise your abilities in ways not always found in the classroom. And, you need some personalized attention to fulfill your educational and career goals.

We offer a whole range of extracurricular activities that can enhance your college experience, and the services that will support your educational progress and develop your potential for growth. The Enrollment Services staff and related support services are committed to helping you map out your educational road, make the transition into college, complete your goals successfully, and find employment or the right place to complete your education.

The key word here is personal – we want to work with you to make sure that your education is everything you want and need.

There is more to college than just lectures, papers, and classes. The best education is one where you are challenged to grow in all areas – physically, socially, and intellectually. And sometimes you just need support in that process – someone who cares about you and wants to help you become successful.
