

Government (Political Science) A2B MassTransfer

Political Science is the study of the origins, principles, and provisions of constitutions, the role of the mass media and public opinion, voting and elections, the institutions of government, and the liberties and rights of citizens. It examines how power is wielded in society, the responsibilities and rights of the individual in human society, differing points of view on the same issue and the importance of considering the ramifications of decisions.

Political Science is a MassTransfer A2B Mapped Program with Massachusetts State Universities and Universities of Massachusetts. When choosing electives, and for a complete listing of eligible MassTransfer programs, current Bristol articulation agreements, and to complete an A2B Program search visit the Transfer Affairs website, to ensure all credits will be transferred and applied to your degree.
