Program: Engineering Technology

Program Code:

TE_MEC

Academic Area:

Science, Technology, Engineering and Mathematics

Type:

Associate in Science

CIP Code:

Program Statement

This concentration prepares students as technicians and mechanical designers. Students learn aspects of mechanical engineering such as computer-aided design, fluid systems, materials science, and strength of materials.

Program Information

- Students gain hands-on experience with mechanical systems (hydraulics, pneumatics and mechanisms), materials, and computer-aided design.
- Students should be in a Math (MTH) course every semester until they have completed their sequence.
- For students with adequate mathematical preparedness, and interested in transfer, PHY 211: General Physics I and PHY 212: General Physics II can be substituted for PHY 101: Technical Physics I and PHY 102: Technical Physics II.
- Completing courses in the summer will reduce fall and spring semester course loads.
- Oral Communication General Education Competency Infused.

After Bristol

- Graduates may work as mechanical/CAD designers, and manufacturing, industrial and design technicians.
- If you are considering transferring to a four-year institution, speak with your advisor and visit Transfer Services for additional information.
