

Project Management Certificate

Program Goals Statement

As companies look to gain efficiencies and improve their bottom line, the awareness of project management as a valuable skill and the demand for skilled project managers have definitely increased in the United States. Job opportunities for project practitioners are in the sectors of energy, healthcare, construction, finance, IT, and aerospace and defense. Project managers motivate and direct team members to achieve the goal of project completion - preferably on time and under budget. And to the team performing the work, project managers remain a visible presence for its duration.

Program Information

This program is designed to prepare graduates to manage and lead project teams across a spectrum of business areas. Upon completion of the program, you will acquire the tools and techniques to enhance your project management skills, earn a Certificate in Project Management and be prepared to sit for the Certified Associate in Project Management exam (CAPM).

The curriculum provides a framework of leadership principles with project management strategies and skills that are needed by successful project managers in any organization.

The program is aligned with the core processes found in the Project Management Body of Knowledge (PMBOK) Guide.

Related Programs

All courses may be applied to an Associate in Science in General Studies, Business and Entrepreneurial Studies.
