

Web Design

Program Goals Statement

This certificate prepares students to respond to the needs of the new media design industries, specifically the Web design. Students receive a firm grounding in the basics of design and current design technology, with a strong emphasis on visual communications. This program is specifically suited for those with a technical or art/design background who want to expand their skill set.

Program Information

- This program is intended to help students enter the job market directly into careers in multimedia design, Web design, and Web animation.
- Courses in this program transfer into the degree program in Web Design & Media Arts career and in Graphic Design.
